Drawing

- **Usually not directly to canvas**
- **A path is a pattern for the "pen" to follow**
- **Once the path is set, it is sent to the canvas**

Paths

- **moveTo(x,y)**
- **lineTo(x,y)**
- **closePath**
- **clip**
- **rect(x, y, width, height)**
- **arc(x, y, radius, startAngle, endAngle, direction)**
- **quadraticCurveTo(cpx, cpy, x, y)**
- **bezierCurveTo(cp1x, cp1y, cp2x, cp2y, x, y)**

Paths

- Demo

Text

- **font – sets the font properties using the same values as CSS**
- **textAlign**
  - start
  - end
  - left
  - right
  - center

Text

- **textBaseline**
    - top
    - hanging
    - middle
    - alphabetic
    - ideographic
    - bottom
- **measureText(text)**

Text

- Demo

Summary

- **A path is a pattern for the "pen" to follow**
- **Once the path is set, it is sent to the canvas**
    - ▫ lineTo, moveTo, arc…
- **Text**
    - ▫ font
    - ▫ alignment...
